

Documentation of The Lazy Bee project

LANDINGPAGE

This is The Lazy Bee landing page where you will see The Lazy Bee logo that is spinning when touched and it is even link that leads to this main page from all the other pages in this application(see examples below). Meny and Boka Bord buttons are links that lead you to the Menu and Table booking as they describe. You can also see the header that is same at all pages and dynamic so it just changes name of page you are looking at. Footer is at the end of page and shows information about the restaurant: where you can find it, its open hours and contact number.

Meny

MENU PAGE

When you click on Meny button on start page you will come to a page where you can read the menu as well as click on spinning button that will lead you to page for table booking.

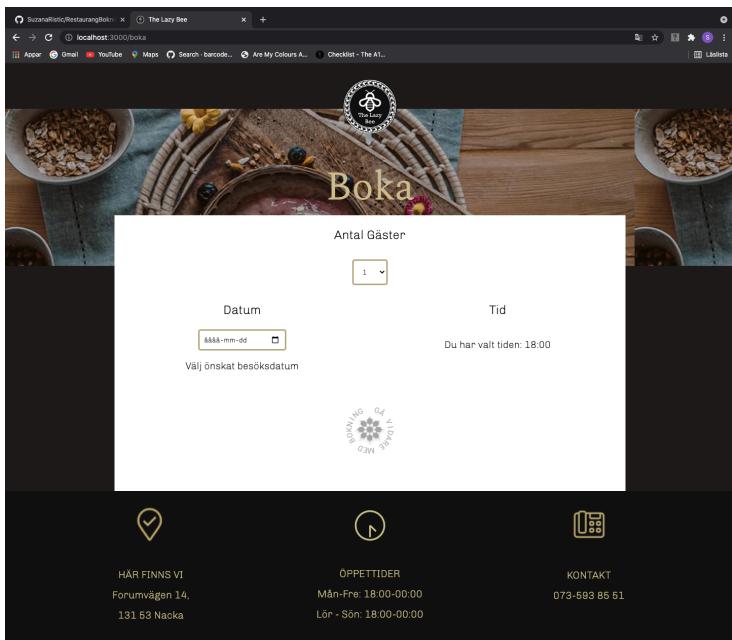

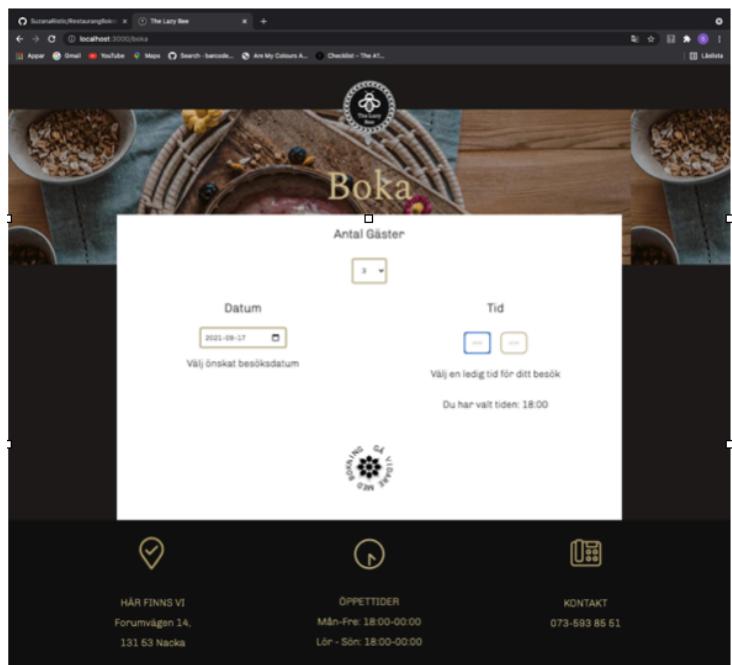

TABLE BOOKING PAGE

This is a table booking page. Button to go on to confirmation of booking table is disabled until guest doesn't choose number of guests, date and time of arrival.

When guest chooses number of persons that are visiting, date and time, button becomes darker and starts spinning when touched. In this moment guest can click the button that will lead him to page for confirmation of booking where he can enter his personal information.

The screenshot shows a guest booking form for 'The Lazy Bee' restaurant. At the top, there's a header with the restaurant's logo and the word 'Boka'. Below it, a yellow bar displays the booking details: 'Antal: 3', 'Datum: 2021-09-17', and 'Tid: 18:00'. The main form area contains fields for 'Förnamn*', 'Efternamn*', 'Email*', 'Telefon*', and 'Allergener/Önskemål'. Each field has a placeholder and a small asterisk indicating it's required. Below the fields is a note: '*Vänligen fyll i alla obligatoriska fält'. At the bottom right is a decorative flower logo.

GUEST INFO BOOKING PAGE

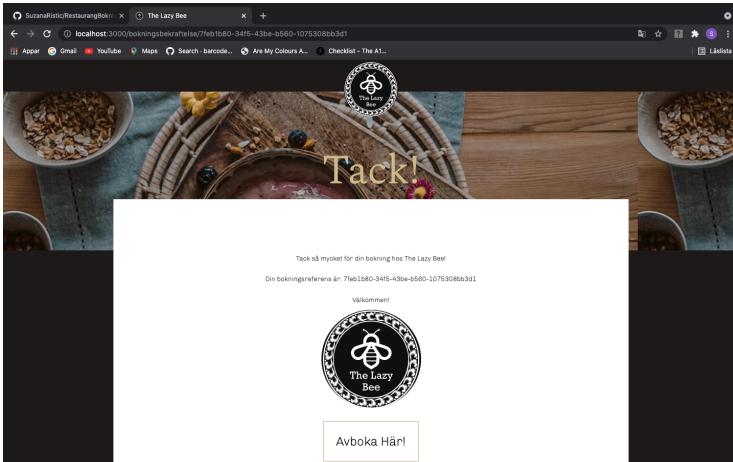

On this page guest can fill out the form where he can write his name, last name, email, phone number, and any message or allergy notice he has. Confirm booking button is disabled until guest doesn't fill in all fields in valid form.

This screenshot shows the same booking page but with validation errors. The 'Efternamn*' field is empty, and the 'Email*' field contains 'susi_henri' which is flagged as an 'Invalid email address'. The 'Telefon*' field contains '0736702187aa' which is flagged as an 'Invalid phone number'. The rest of the form (Antal, Datum, Tid, Allergener/Önskemål) appears to be filled correctly. The validation error messages are displayed below their respective input fields.

Validation can be seen if guest fills invalid information to given fields. Button is still disabled until all required field are filled correctly.

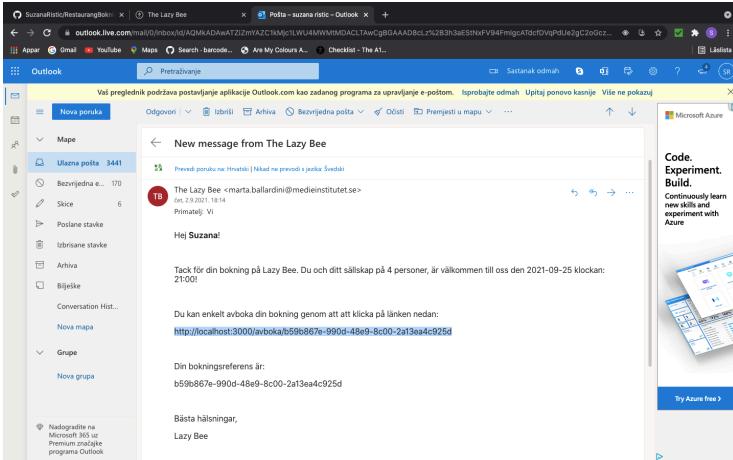

The screenshot shows a booking form on a website for 'The Lazy Bee'. At the top, it displays the number of guests (Antal: 3), the date (Datum: 2021-09-17), and the time (Tid: 18:00). Below this, there are fields for First Name (Förnamn*), Last Name (Efternamn*), Email (Email*), and Phone Number (Telefon*). There is also a field for Allergies/Preferences (Allergener/Önskemål) which is currently empty. A note below the form says: '*Vänligen fyll i alla obligatoriska fält'. At the bottom, there is a logo of a bee and a small text: 'HÄR FINNS VI', 'ÖPPETIDER', and 'KONTAKT'.

When all required fields are filled with needed information then button becomes black and starts spinning when touched which gives you opportunity to confirm booking. When this button is pressed booking is saved into database and can be seen by admin.

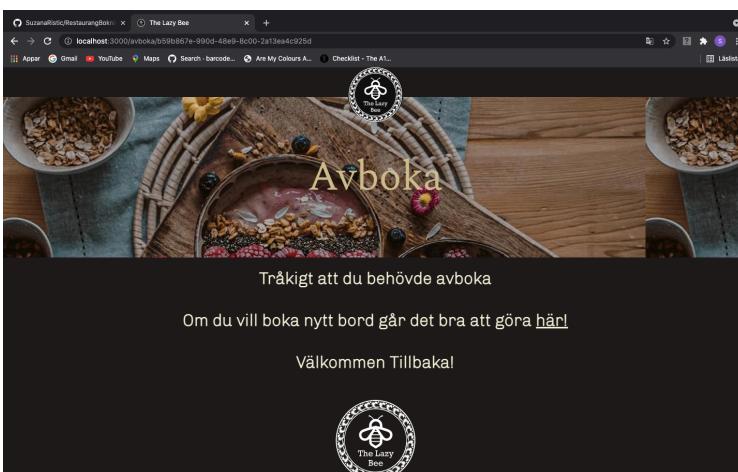

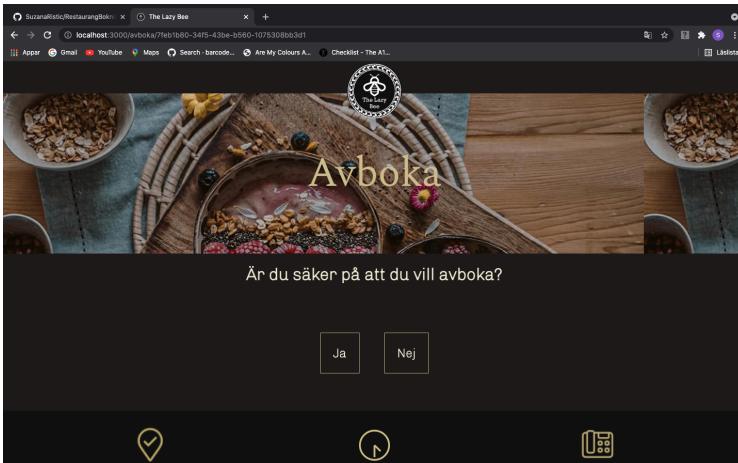

CONFIRMATION PAGE

This is a confirmation page where guest can see confirmation for his booking which he gets at his mail as well(see picture below). Guest can both cancel booking by pressing "Avboka här" button as well as following link that he got at his email. Both "Avboka här" button and link will lead him to page where he confirms cancellation of booking

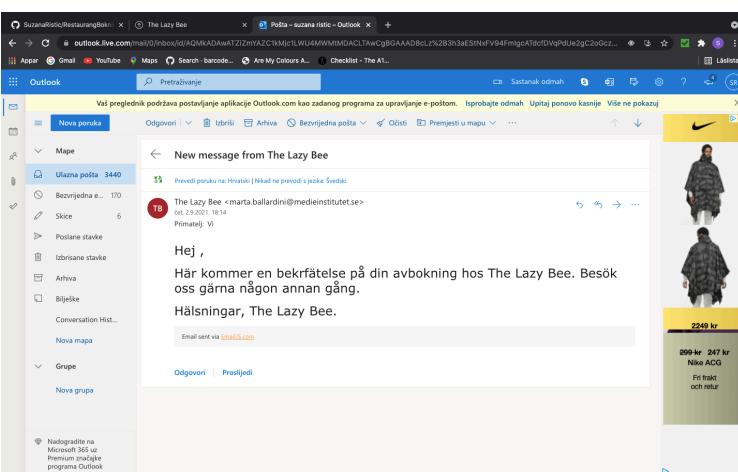

CONFIRM CANCELLATION PAGE

At this point guest can choose if he wants to cancel booking. If pressed no (nej) he will be led to start page, and if pressed yes he will get email that confirms cancellation as well as message for that on the screen. See pictures below.

If pressed here(här) link guest will be led to table booking page.

Email that confirms cancelation

ADMIN ROUTE PAGE

The screenshot shows a web application interface titled 'Admin' over a background image of a smoothie bowl. At the top, there is a date input field labeled 'Välj Datum:' (Select Date). Below it, a section titled 'Bokningar:' (Bookings) lists five entries:

Name	Guests	Time	Edit	Delete
Melina Kamyab	7	18:00		
Marta Ballardini	6	21:00		
Melina Kamyab	4	21:00		
Melina Kamyab	4	21:00		
Marta Ballardini	10	21:00		

To get to this page you need to go to the admin route. Here you can see all the bookings that are saved on database. You can also choose to go do edit booking page by clicking on edit button or to delete booking completely. These buttons also directly update bookings in database.

EDIT BOOKING - ADMIN PAGE

The screenshot shows a modal window titled 'Andra Bokning' (Other Booking) over a background image of a smoothie bowl. The form contains the following fields:

Antal Gäster:	<input type="text" value="7"/>
Datum:	<input type="text" value="2021-06-24"/>
Tid:	<input type="text"/>
Förnamn:	<input type="text" value="Melina"/>
Efternamn:	<input type="text" value="Kamyab"/>
Telefon:	<input type="text" value="073992118"/>
Email:	<input type="text" value="melina.kamyab@gmail.com"/>
<input type="button" value="Bekräfta ändring"/>	

At this page you can edit booking as admin, and change everything from number of people, date, time and information about guest. By clicking confirm changes 'bekräfta ändring' you save new information to database.
